**Reformers, Radicals, Revolutionaries**  
**Anabaptism in the Context of the Reformation Conflict**  
by Abraham Friesen

Abraham Friesen is one of the foremost scholars of Erasmus's influence on the Swiss Brethren and Menno Simons. This achievement is the foundation for *Reformers, Radicals, and Revolutionaries: Anabaptism in the Context of the Reformation Conflict*. Friesen distills the debate about "penance" and "repentance" with clarity and insight, demonstrating its seminal significance for Anabaptist ecclesiology. With meticulous reference to the sources, he dissects Augustine's interpretation of the parable of the wheat and tares as defended by both Luther and Müntzer. His argument sheds new light not only on the emerging ecclesiological difference between the magisterial and radical reformers but also on the conflict between peaceful and revolutionary Anabaptists.

With characteristic verve, Friesen plunges into the well-worn debates surrounding the Anabaptist movement and emerges with a host of fresh insights. Here you will find an ardent defense of Anabaptist convictions presented not as a subset of "distinctives" within a larger framework of universal Christian principles, but as an effort to live in purity according to the model of Christ and the apostles. Friesen's wide-ranging engagement with the primary sources, his capacious understanding of Reformation scholarship, and his confident argumentative style make this book a delightful and provocative read! —*John D. Roth, Goshen (Indiana) College*
